# Digital Strategy of MoE (2019 – 2024)

## Main categories of interventions:

1. Smart Infrastructure
2. Smart Economy
3. Smart Living

## Financing:

Partnership Agreement for the Development Framework

2014-2020   
ΕΣΠΑ 2014-2020  
ανάπτυξη - εργασία - αλληλεγγύη

❑ Integrated Spatial Investment of West Athens (5.0m €)

Timeframe: 2019 -2021

- European Regional Development Fund (2.5m €)
- European Social Fund (2.5m €)

# 1. Smart Infrastructure

## Action 1.1: IoT infrastructure

Indicative actions:

- Lighting
- Congestion
- Air quality
- Noise levels
- Waste management
- Energy consumption
- Water management
- Fleet monitoring
- Wi-Fi spots

## 2. Smart Economy

### Action 2.1: Upgrading and managing the urban environment

Indicative actions:

1. Development of a GIS platform
2. Development an intelligent management platform

- Infrastructure status monitoring
- Automated procedures
- Interfacing with the local community
- Air and water quality monitoring
- Power consumption management
- Measurement of meteorological parameters
- Waste management

## 2. Smart Economy

### Action 2.2: Analysis and management of tourist and cultural flows

Indicative actions:

1. Developing a platform for managing and processing large data for the tourism sector
2. Development of digital tools to analyze profile and visitor behavior
3. Development of digital tools to implement advanced analysis, forecasting and visualization techniques to design value-added services to tourism professionals and visitors

## 2. Smart Economy

### Action 2.3: Integrated destination management system

Indicative actions:

1. Development of an integrated management and promotion platform for MoE as a tourist, cultural and business destination with services for visitors

### Action 2.4: Digitizing cultural heritage records

Indicative actions:

1. Digitization of cultural heritage material
2. Digital documentation and promotion of the cultural stock of the cultural institutions of MoE
3. Utilization of archival material by cultural operators

## 2. Smart Economy

### Action 2.5: Management of cultural heritage

Indicative actions:

1. Development of an integrated platform for managing the digital cultural stock of the city
2. Upgrade of the municipal library management software
3. Development of a “Digital Library” for the historical archive and the municipal library

### Action 2.6: Virtual Tours

Indicative actions:

1. Developing a virtual tour application for experiential participation in the museums of MoE and the historical road of “Iera Odos”
2. Developing a digital guestbook

## 2. Smart Economy

### Action 2.7: Open mall

Indicative actions:

1. Installation of intelligent sustainable mobility systems
2. Promotion actions for the shopping area

## 3. Smart Living

### Action 3.1: Smart lighting

Indicative actions:

1. Replacing existing bulbs / luminaires and installing smart LED lighting in selected urban areas
2. Interconnection between network devices with low energy communications infrastructure (eg NB-IoT)
3. Develop integrated intelligent city lighting management platform

## 3. Smart Living

### Action 3.2: Intelligent electronic platform for smart and friendly governance and smart city guidance

#### Indicative actions:

1. Development of a platform for enhancing the communication of the municipality and citizens
2. Integration of e-services for citizens at a single point
3. Development of digital tools for "Open Data" (Infodrasi)
4. Developing applications for:
  - Everyday life
  - Electronic payments
  - Personalized notification via smart alerts (Novoville)
  - Citizens' proposals and open consultation

## 3. Smart Living

### Action 3.3: Large-scale urban data management

Indicative actions:

1. Developing a platform for processing, analyzing and distributing large-scale urban data
2. Development of digital tools for extracting conclusions and decision-making systems with different criteria (economic, social, energy, etc.)

### Action 3.4: Smart city coordination center

Indicative actions:

1. Development of a smart city coordination center
