

Connectivity to accelerate Industry 4.0

Dr. Theodoros Rokkas, CTO

inCITES Consulting

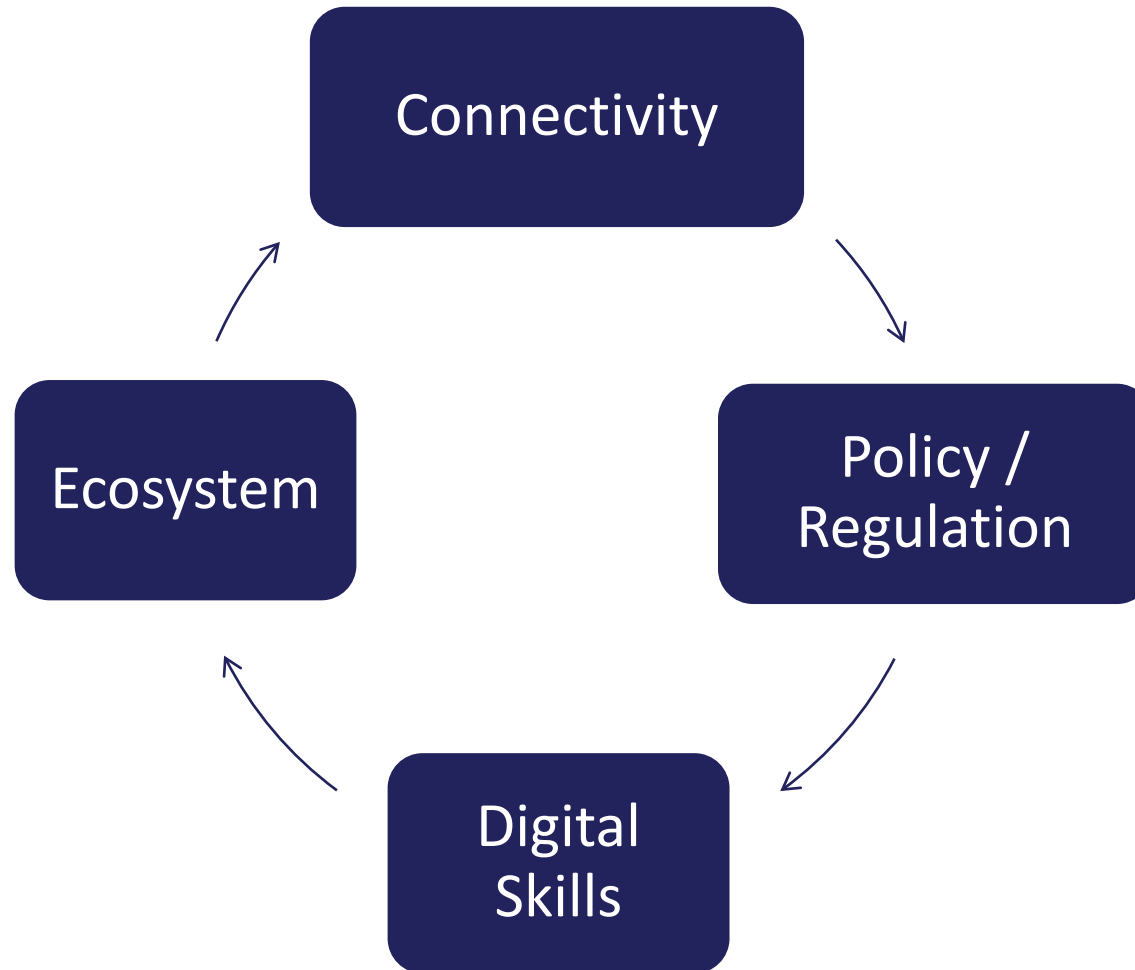

What we do

Industry 4.0

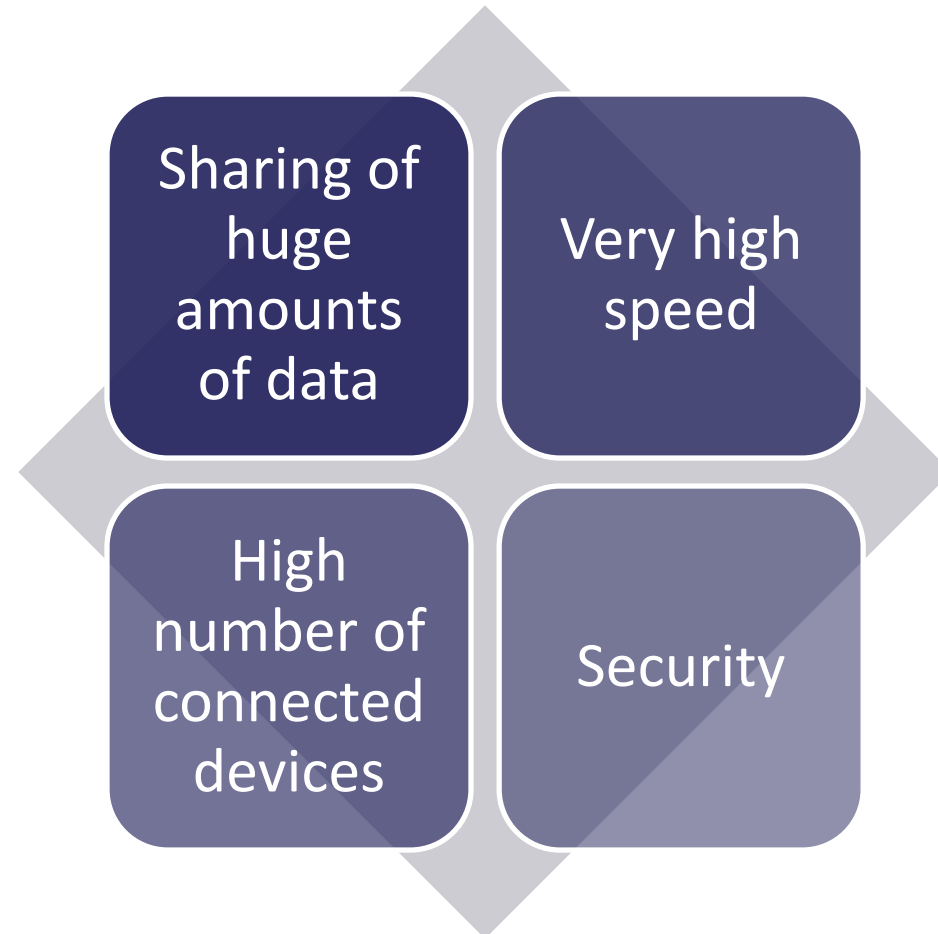

Requirements

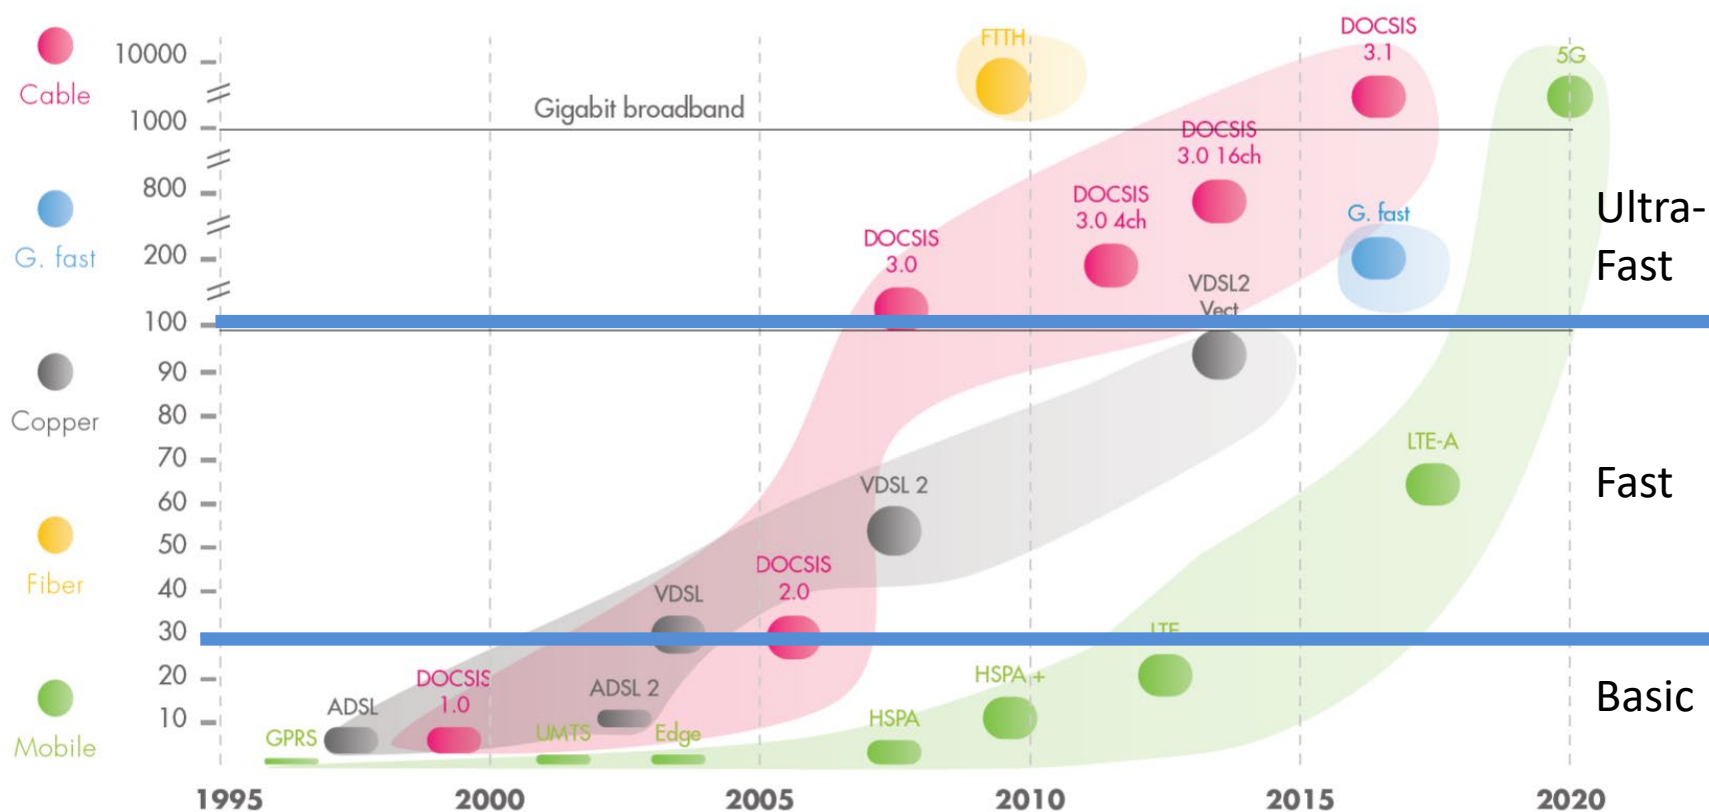

Connectivity

Connectivity Requirements

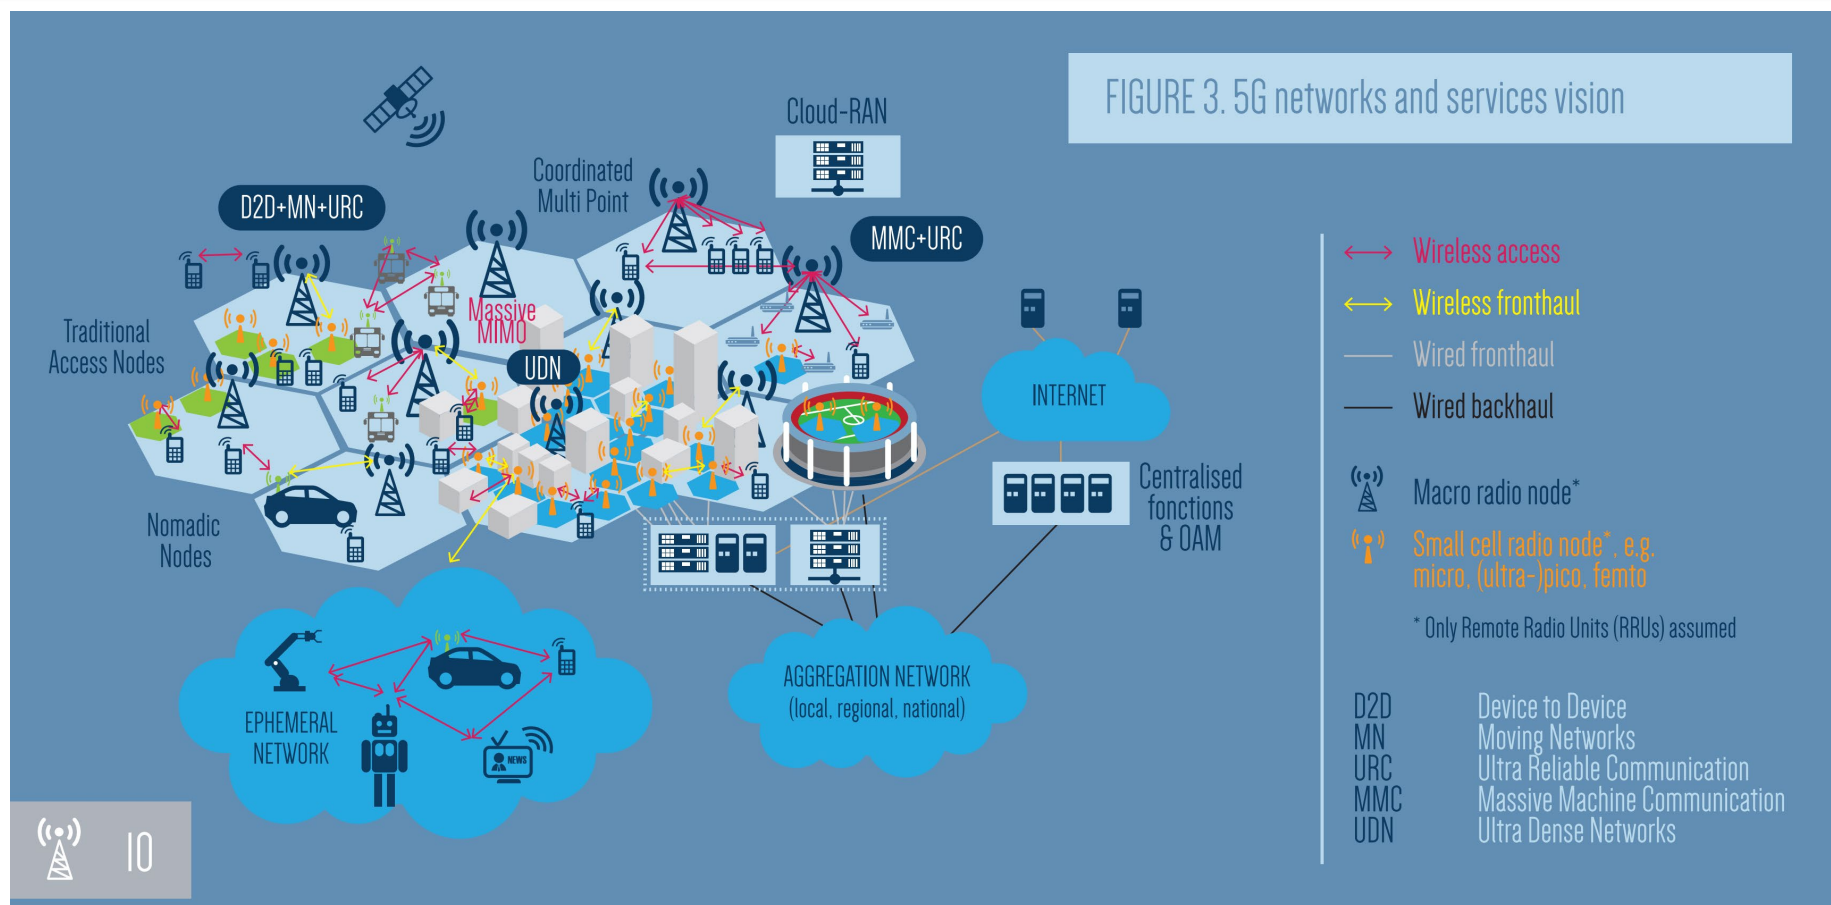

Gbps access for all by 2025

Only FTTH, DOCSIS 3.0/3.1 and 5G are capable of delivering speeds above 1Gbps
broadband access technology roadmap – downstream speed range

DESI Report 2019 – Connectivity

8

European Commission

4G Coverage

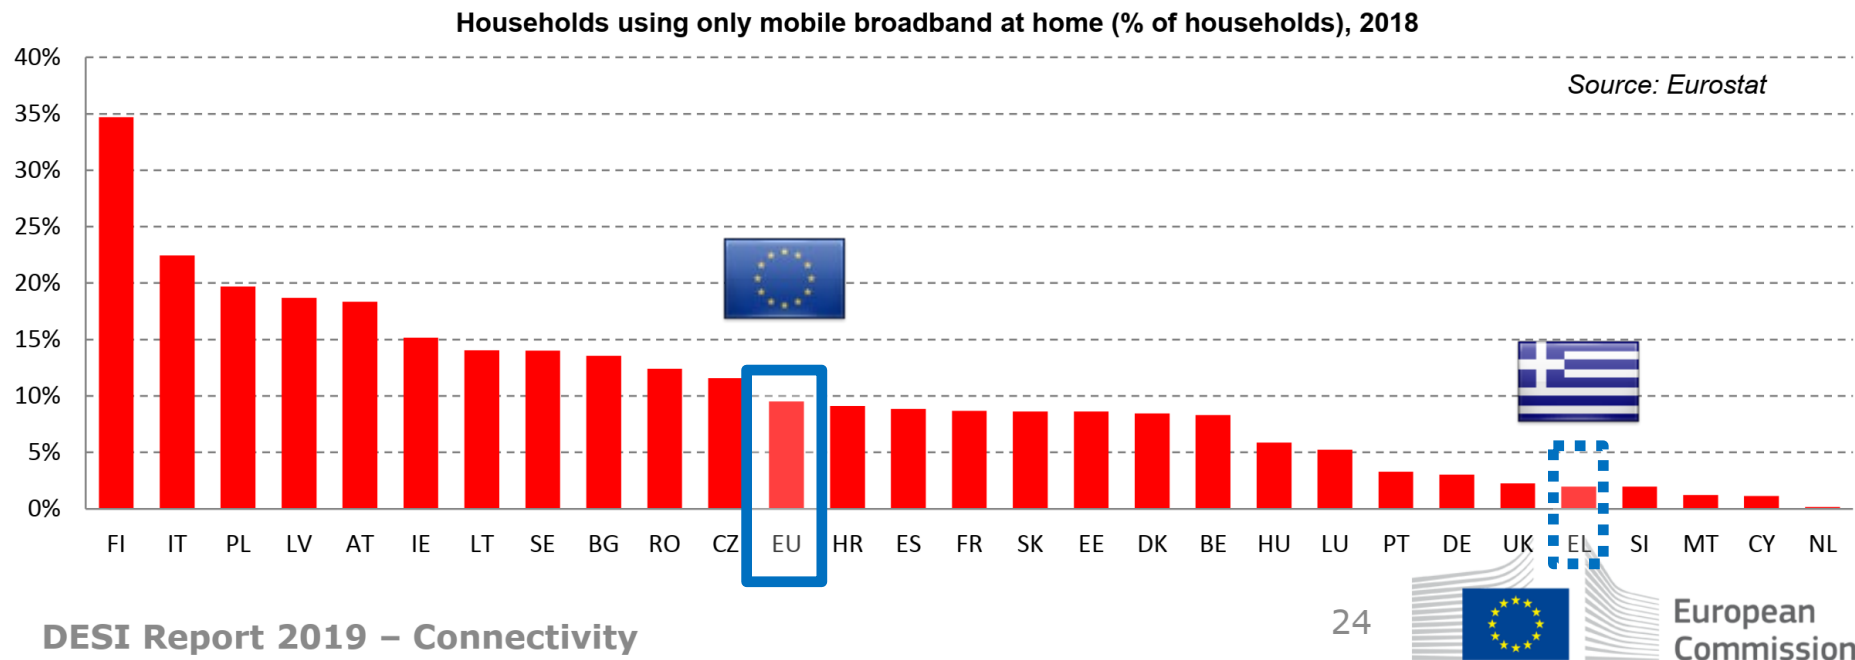

DESI Report 2019 – Connectivity

11

Households with only mobile broadband

The next day

NGA Deployments

On going

- VDSL Vectoring (~2.8M lines)
- FTTH (~140K lines)

Future

- Initial interest for UFBB
- Mapping of infrastructures
- Next phase: Competitive Dialogue

5G initiatives in Greece

- Cities:
 - Kalamata, Patra, Trikala, Zografou
- Corridor:
 - Thessaloniki, Sofia-Belgrade: Letter of Intent
- Spectrum auctions
 - Trial licenses (3.6 / 28 GHz)
 - 3.4-3.8GHz Q42019
 - 700MHz End 2020
 - 26GHz 2019-2020
- National plan (12/2019)

5G initiatives

- Commercial networks (Europe)
 - Finland (4 cities)
 - Switzerland (54 cities)
 - UK (Parts of 15 cities)
 - Austria (17 Rural – 2 Urban municipalities)
 - Italy (Part of cities)
 - Spain (15 cities, 50% coverage)
 - Romania (Part of 3 cities)
 - Germany (Part of 15 cities)
 - Ireland (Part of 5 cities)
 - Estonia (Tallinn)
- Commercial networks (Asia)
 - South Korea (1,5M subscribers)
 - China (previous month, plan to cover 50 cities by end of year)
 - Sharing infrastructure agreement between operators
 - Three operators co-own China Tower Corp.
- Live tests in five cross-border corridors
- National Strategies (10 countries)
 - Austria, Estonia, Finland, France, Germany, Luxembourg, Spain, Sweden, Netherlands, UK

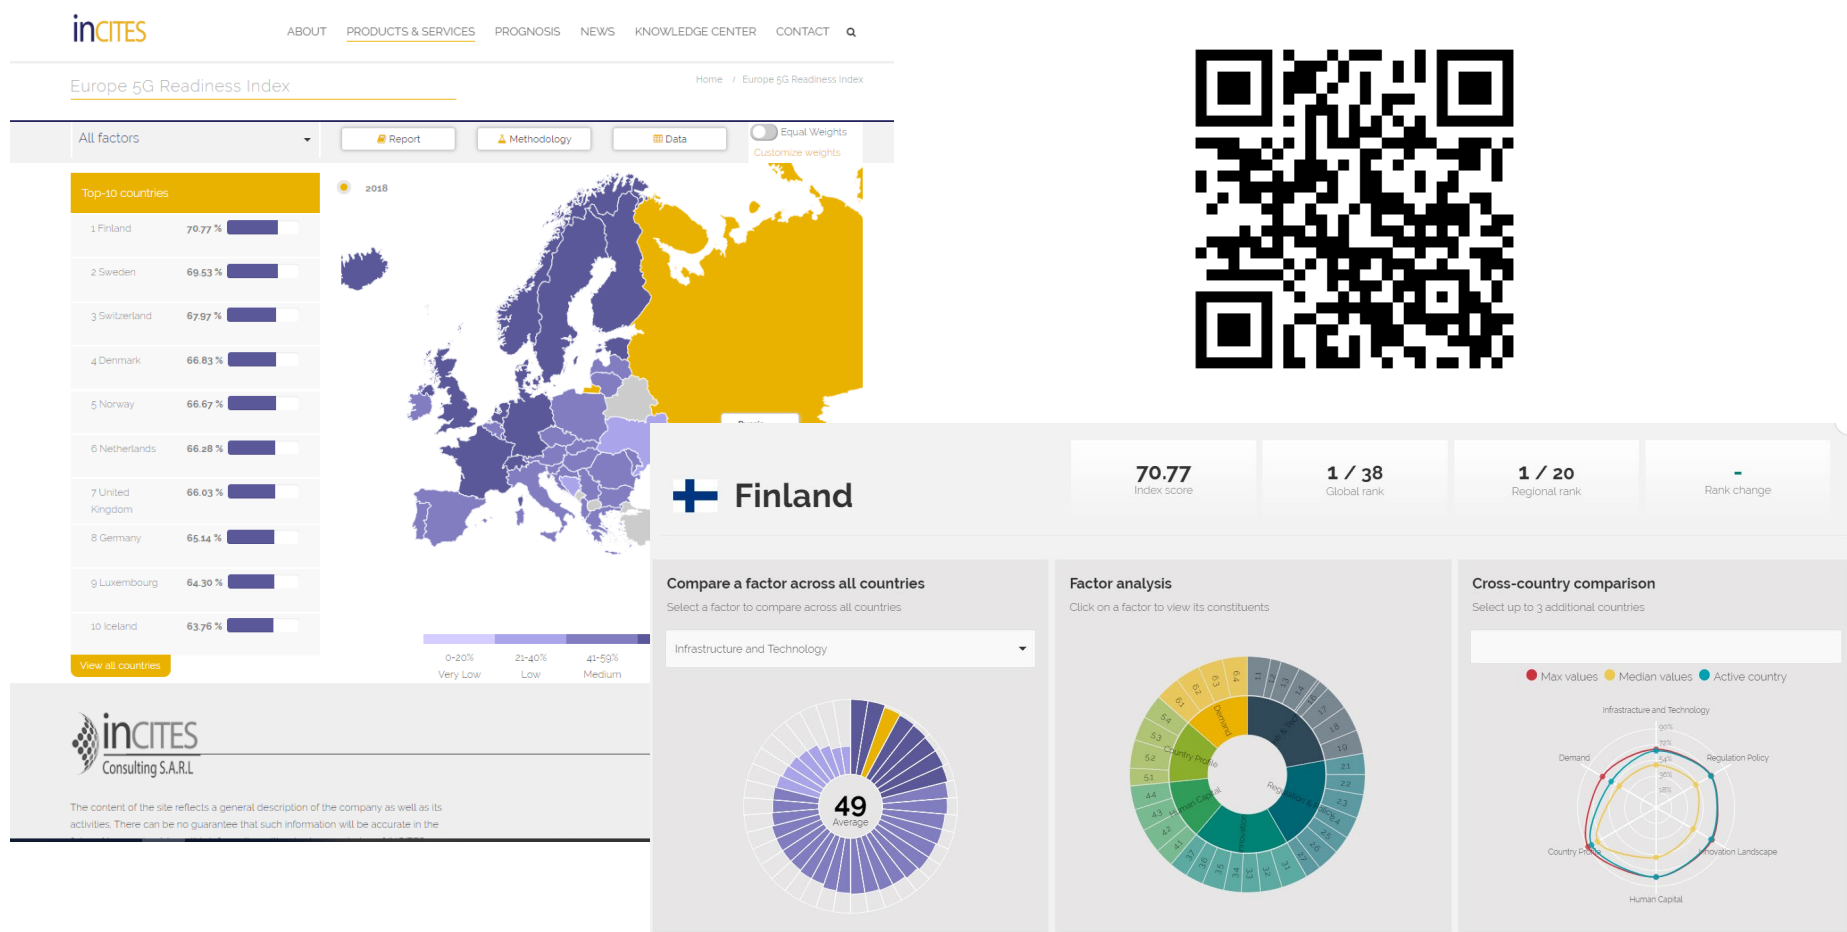

How ready we are for 5G?

Europe 5G Readiness Index

www.incites.eu/europe-5g-readiness-index

Europe 5G Readiness Index

Main Factors

Infrastructure and technology

- Existing fixed and mobile infrastructure that will be used in 5G networks as well as preparatory steps such as spectrum auctions and trials

Regulation and Policy

- Relate to the regulatory and policy framework

Innovation Landscape

- Potential contributors to the development of the new technology from a research and financial perspective

Human Capital

- Quality of the education system and lifelong learning initiatives

Country profile

- Existing economic state of a country, existing ICT industry competition and the government's reception of new technologies.

Demand

- Reception of new fixed and mobile technologies as well as the use of the Internet

Top-Bottom performers

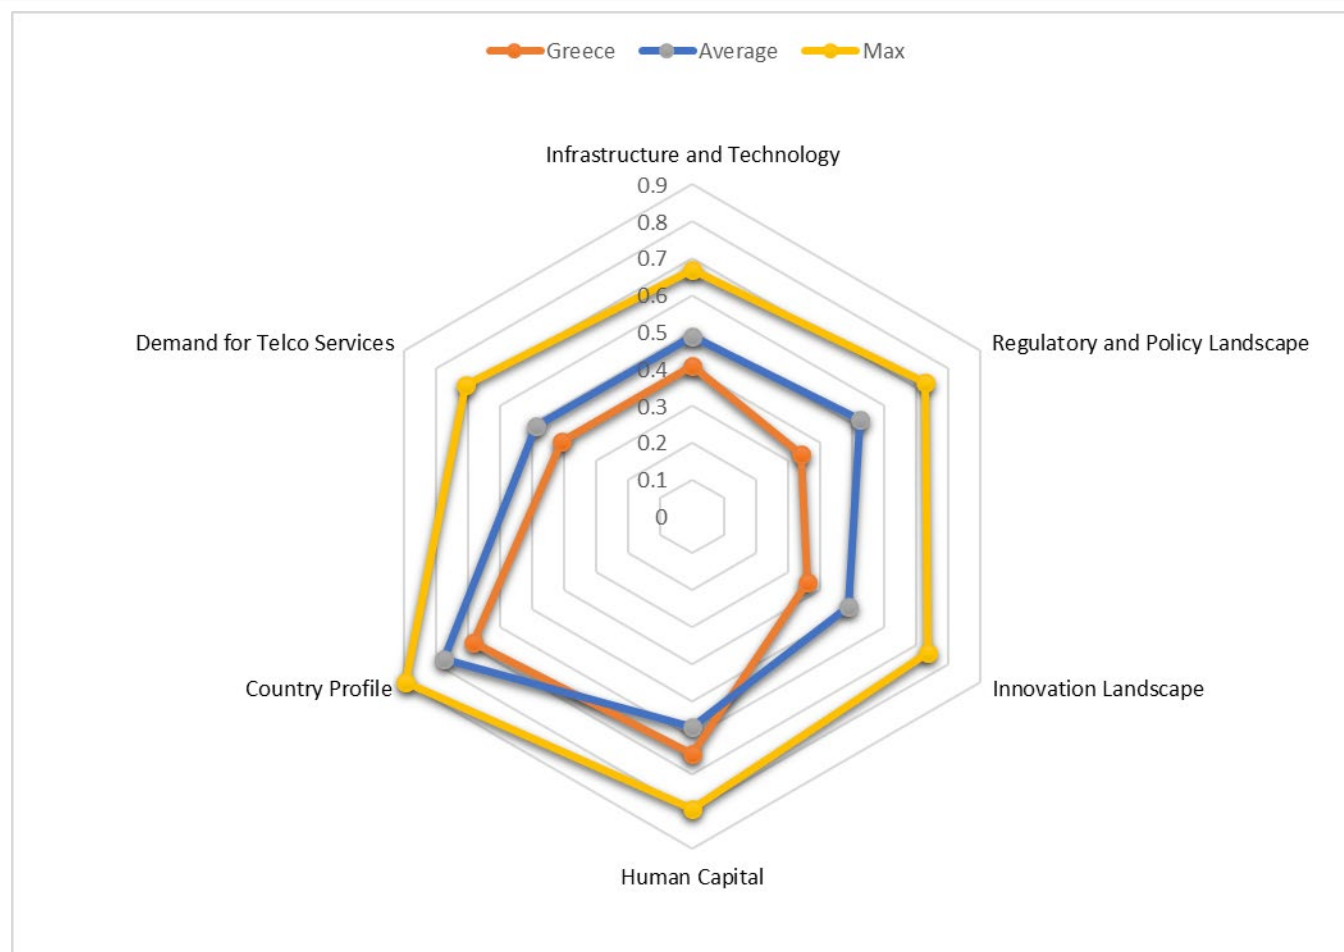

Rank	Country
1	Finland
2	Sweden
3	Switzerland
4	Denmark
5	Norway
6	Netherlands
7	United Kingdom
8	Germany
9	Luxembourg
10	Iceland

Rank	Country
29	Cyprus
30	Greece
31	Croatia
32	Georgia
33	Bulgaria
34	Serbia
35	Moldova
36	Albania
37	Ukraine
38	Bosnia & Herzegovina

Greece's 5G Readiness

Score:
44.34

Rank:
30/38

Individual factor ranking

Factor	Rank
Infrastructure and Technology	30
Regulatory and Policy	37
Innovation Landscape	29
Human Capital	9
Country Profile	36
Demand for Telco Services	29

Infrastructure and Technology

- Fiber Coverage
- Spectrum auctions

Regulatory and Policy

- Effectiveness of law bodies
- Legal system in setting disputes

Innovation Landscape

- R&D expenditure
- University – Industry collaboration

Human Capital

- Tertiary
- Availability of scientists and engineers

Country Profile

- GDP
- Importance of ICT to government's vision

Demand

- NGA penetration

Key points

- Connectivity is key element for Industry 4.0 and digital transformation
- Ongoing NGA deployments but still behind EU
- Improve our digital (5G) readiness
 - Create ecosystem and build relations
 - FTTX deployments to consider 5G requirements
 - Exploit assets (Human capital)
 - Develop applications and services in our Verticals

Thank you!
